

DARK ROAST COFFEE *Contact us for current availability and pricing.*

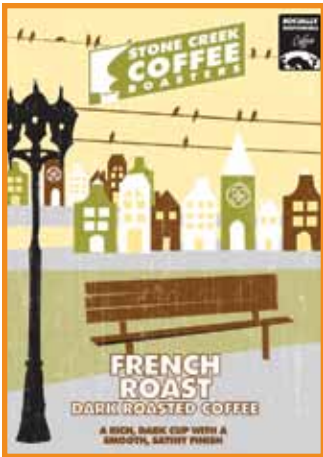

DARK & DANGEROUS

For those who like a full-bodied, strong cup of coffee, our dark-roasted line is for you! In order for us to consider dark-roasting a coffee, the bean has to have abundant flavor characteristics that will still come through after a higher degree of roasting.

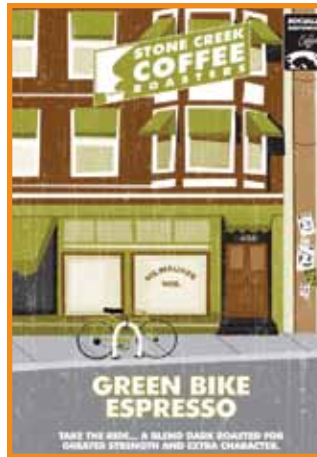

FACTORY DARK BLEND

Our Factory Dark is a blend of some of Central and South America's finest coffees. Beginning with a deep, earthy body followed by gentle hints of dark chocolate and toasted nuts, our Factory Dark Blend is sure to impress all of the dark roast fans.

FRENCH ROAST

Our French Roast is a rich, dark coffee with an undercurrent of bittersweet cocoa and a surprisingly smooth, satiny finish.

GREEN BIKE ESPRESSO

Take the ride... Our Green Bike Espresso is a silky combination of two boldly-flavored beans, dark-roasted for greater strength and extra character. The result is apparent in every cup of espresso we serve.

ORGANIC GREEN BIKE ESPRESSO

Rich and intensely aromatic, this coffee is a carefully-crafted organic espresso blend designed to yield extra crema, the caramel-colored foam that caps a perfect shot of espresso.

FACTORY RESERVE

A truly unique and highly-prized coffee selected from only the best beans available. The Factory Reserve offering is limited and rotates frequently. Call us for further information on the current Reserve.

SEASONAL BLENDS

Through a series of testing and evaluating recipes, we create a blend appropriate for the season. Available for a limited time only. Call us for further information on the current Seasonal Blend.

OUR COFFEES ARE AVAILABLE IN 1/2 LB, 1 LB AND 5 LB BAGS.
